

3rd WiE World Summit

SPONSORSHIP OPPORTUNITIES

Elevating leadership and expanding horizons. All of us. Together.

ABOUT US

We empower women in the exhibition industry and help nurture the next generation of female leaders.

Founded in 2018 by Oana Cipca, Women in Exhibitions (WiE) was created to support the professional development of women in the exhibitions industry and provide opportunities to meet, learn, and grow through a strong, connected community.

WiE champions gender diversity — a challenge that remains across the sector — by offering an open, supportive platform for collaboration and progress.

With a strong collective voice at a global level, and active regional chapters addressing local needs, WiE continues to drive meaningful change across the industry.

THE SUMMIT

The 2025 summit theme is:

Elevate, Accelerate: Together We Rise

We're ready to move forward, faster.

To elevate women's voices, accelerate progress, and rise together; not in isolation, but in partnership. That's why this year's programme will also include male allies and leaders, highlighting the importance of collective effort in driving meaningful, lasting change across our industry.

We invite all voices to be part of the change.

THE WiE EFFECT

GES is excited to join forces with WiE once again for their next summit in London. Since its very first event, we've proudly supported this movement — reflecting our commitment to empowering women in the exhibitions industry and driving a more diverse, equitable, and inclusive environment for all.

Global Experience Specialists (GES)

Women in Exhibition World Summit has transformed the way we connect, collaborate and grow in our industry, it goes so much further beyond than just networking. What I found so special is the range of content available coupled with the opportunities for our career and personal growth. Every session and conversation left me energised and brimming with ideas.

Simone Lisk, Content Marketing Manager, Informa Connect

I attended the WiE World Summit in Milan as part of a research project focused on understanding the female experience within the industry. The WiE team created such a welcoming and open environment where people could share their challenges. I left with a clear sense of purpose — that we have the power to drive real change — and now I know how I can play my part.
